iOS 15 Image

DESCRIPTION

An image of iOS 15 was created using an iPhone 8 that had been factory reset. Several popular applications (apps) were populated with user data utilizing the capabilities of each individual app. The stock iOS apps were also populated with user data.

All times listed in this document are 24-hr, Eastern Daylight Time (UTC -0400). Dates are in the yyyy-mm-dd format.

Media (pictures/videos) transferred are described in (*italics*).

Some of the data available in the apps were sync'd with data that had been previously populated. Information about the previously populated data can be found in the documentation of the respective images, which can be found at https://thebinaryhick.blog.

PHONE INFORMATION

Make:	iPhone 8
Model:	A1905 (Space Grey)
Order Number:	MQ6Y2LL/A
RAM:	2 GB
Storage:	64 GB
Carrier:	Google Fi
Phone Number:	919-579-4674
Serial:	FFMW4BH5JC67
Wi-Fi MAC:	F0:98:9D:35:40:00
BT MAC:	F0:98:9D:35:40:01

iOS VERSION INFORMATION

Version: 15.3.1
Build: 19D52
Passcode: 0731

PROCEDURE

1. The phone had been previously reset to factory defaults, including a wipe of the device. iOS 15.3.1 was installed.
2. A Google Fi account was added in order to apply cellular service to the device.
3. Fifty-four (54) non-stock apps were installed from the AppStore and populated with user data based on each app's respective capabilities.
4. Stock iOS apps were populated with user data based on each app's respective capabilities.
5. An extraction was performed using Cellebrite Premium.

APPLE ACCOUNT INFORMATION

Email Address: thisisdfir@gmail.com (added to device on 2023-04-15 at 09:58)

PERMISSION MODEL

Photos: Apps that were allowed to send/receive pictures were allowed to access all photos

Microphone: Apps that were capable of capturing video or make/receive calls were allowed to access the microphone.

Location: Apps that were allowed to send real-time/dynamic location information and apps that were used for health data (Fitbit, Garmin, Health) were allowed to access location data all the time. Otherwise, apps were only permitted to access location while the app was being used.

NON-STOCK APP INFORMATION

The non-stock apps that were loaded and tested are alphabetically listed below. Information about the app, including user interaction, is also listed. Some apps contain previously generated data from other images (Android and iOS). For documentation on previously generated data, see the documentation for the respective images at https://thebinaryhick.blog.
