iOS 16 Image

Description

An image of iOS 16 was created using an iPhone 11 that had been factory reset. Several popular applications (apps) were populated with user data utilizing the capabilities of each individual app. The stock iOS apps were also populated with user data.

Dates are in the YYYY-MM-DD format. Times vary as follows:

Times between 2023-07-01 and 2023-11-04 are Eastern Daylight Time (UTC -0400)
Times between 2023-11-05 and 2023-11-21 are Eastern Standard Time (UTC -0500)
Times between 2023-11-22 and 2023-11-28 at 12:00 UTC are in Central European Time (UTC +0100)
Times after 2023-11-28 at 12:00 UTC are Eastern Standard Time (UTC -0500)

Transferred media (pictures/videos) and emojis are described in (*italics*).

Some of the data available in the apps were sync'd with data that had been previously populated. Information about the previously populated data can be found in the documentation of the respective images, which can be found at https://thebinaryhick.blog.

Phone Information

Make:	iPhone 11
Model:	A2111 (Purple)
Order Number:	MWLC2LL/A

PROCEDURE

1. The phone had been previously reset to factory defaults, including a wipe of the device. iOS 16.1.2 was installed.
2. A Google Fi account was added in order to apply cellular service to the device.
3. Fifty-five (55) third-party apps were installed from the AppStore and populated with user data based on each app's respective capabilities.
4. Stock iOS apps were populated with user data based on each app's respective capabilities.
5. Some third-party apps were updated.
6. An extraction was performed using Cellebrite UFED.
